Mildew Cure[®]

Concentrate

Mildew Cure[®] is an organic, botanical based fungicide for the control of powdery mildew on a variety of plants. Mildew Cure[®] is made from all natural, food grade materials so it is ideal to use on vegetables and other plants.

DIRECTIONS FOR USE: SHAKE WELL BEFORE USE.

This product may separate into layers after prolonged storage. This is normal.

Mix 1.5 oz (3 tablespoons) of Mildew Cure[®] per one gallon of spray water. Apply enough to cover the entire surface of infected plant. Repeat application at 7-10 day intervals or as needed. Coverage is essential to establish control. The use of SaferGro Natural Wet[®] may increase efficacy of Mildew Cure[®] treatment.

STORAGE AND DISPOSAL: Store in a cool, dry place. Dispose of properly.

PRECAUTIONARY STATEMENTS

Avoid contact with skin, eyes or clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.

Personal Protective Work Clothing: Applicators and other handlers of this product must wear: Long sleeved shirt and pants, shoes and socks, protective eyewear and gloves.

This product is exempt from registration with the Federal EPA under section 25 (b) of FIFRA. Mildew Cure[®] has not been registered with the Environmental Protection Agency. Safergro represents that this product qualifies for exemption from registration under the Federal Insecticide, Fungicide and Rodenticide Act. Do not apply to seedlings or very young plants. Do not apply at less than 7 day intervals. Mildew Cure[®] is suitable for most plants. Always test a small area before large scale application.
