Homefront Favorites Noted With Our  Logo

Tomatoes

Cherry, Grape, Saladette, Paste,
Mid-Size, Slicer, & Beefsteak

*Listed in order from smallest to largest

Planting Window: May - June

Harvesting Window: July - October

Red Cherry

 Traditional super sweet red cherry and crack-resistant.

Sungold

 This orange cherry is nature's candy at its finest!

Black Cherry

High-yielding, purple-brown cherry tomato with great flavor. Indeterminate variety.

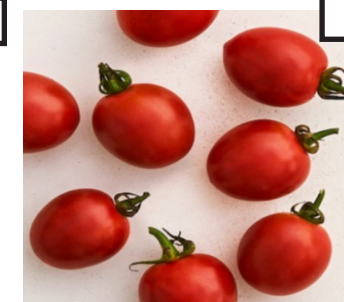

Bumblebee Mix

Includes Sunrise, Pink, and Purple Bumblebee cherry tomatoes. All three varieties have fruity flavor and heirloom appearance. Let us know which color you prefer!

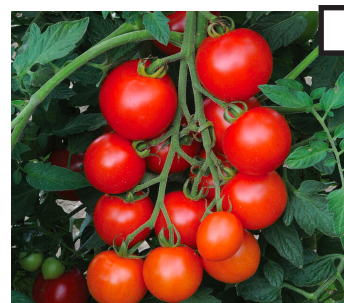

Honeydrop

Exceptionally sweet, full-bodied tomato, great for snacking. Early producer with smooth flavor

Sweet Prince

The latest star from Chef Dan Barber from Blue Hill Stone Barns. This two-bite tomato is great for roasting, sautéing and dehydrating—if you can resist eating them raw.

Mountain Magic

Gorgeous Campari-style tomatoes will ripen in a cluster on the vine! This two-bite tomato is perfect for salads or snacking.

Valentine Grape

Classic red grape tomato. Early & crack resistant!

Golden Rave

 Words cannot express our ardour for this amazingly flavorful yellow roma! The perfect tomato for fresh eating as well as sauce making. Disease resistant and productive!

Blush

This two bite tomato is like an extra-long cherry. Fruity-sweet flavor, similar to our beloved Striped German, but much less of a wait!

Brad's Atomic

This one of a kind saladette tomato is perfect for salads or snacking! It starts out black with green streaks and ripens to a blush of red. Deep flavor and an appearance that will wow!

Midnight Roma

From Chef Dan Barber of Blue Hill at Stone Barns, this unique purple & red roma can be eaten fresh, cooked for sauce, or even dried! Semi-determinate bush habit.

Speckled Roman

Gorgeous golden stripes on this red plum tomato lends unique looks to tasty sauce. Cooks down quickly into sauce but can still be eaten raw.

San Marzano

Indeterminate and long-vining plants produce classic paste tomato with elongated shape. Great for tomato sauce.

Plum Perfect

 Determinate and bushy plants produce tons of paste tomatoes at once. Great for canning sauces and salsas at home due to the concentrated harvest.

Green Zebra

Green Zebra is a bit of a misnomer - while this fruit starts out fully green, it ripens to yellow with green stripes. A truly unique appearance and fruity-sweet taste similar to other yellow tomatoes.

Mai Tai

 Heirloom taste and appearance but with the disease resistance of a hybrid. Big slicer, perfect for sandwiches. Ripens to orange with pink blush on the bottom!

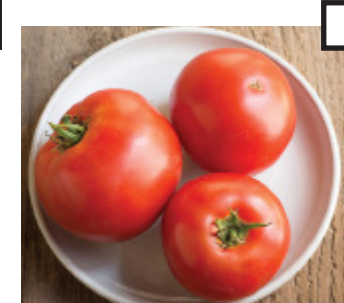

Enroza

6-8 oz beefsteak with exceptional flavor and texture. Fruit clusters are tidy and plants have excellent disease resistance. Like Big Beef but with deeper flavor and smaller in size!

Cuba Libre

This dark "hyloom" gives the rich deep flavor and appearance of an heirloom with the vigor and production of a hybrid.

Big Beef

Early, big and tasty with full flavor!

Cherokee Carbon

Vigorous heirloom quality dark red/purple fruits. Cross between Purple Cherokee & Carbon.

Dr. Wyche's

Smooth texture and tropical, sweet taste on nearly-seedless large fruits that can typically weigh 1lb. Color is a glowing tangerine orange on the vine.

Striped German

Breathtakingly beautiful yellow beefsteak with pink streaks in the bottom. The complex, tangy flavor of this tomato will transport you to tomato heaven!

Mortgage Lifter

Pink heirloom-style beef-stake - meaty and crack-resistant!

Pink Tie Dye

This large, dark red tomato ripens with unique green stripes. Beautiful, yet normal enough even for the traditionalists! Green shoulders when ripe.

Thorburn Terracotta

Honey-brown skin, orange-pink flesh, green seed mass. Introduced in 1893 by James Thorburn of New York! A local favorite. Mid-season producer.

Aura Pepper

Our favorite pepper! Faster to ripen than the bells, but with the same thick, juicy walls! These 4" long, cone-shaped sweets are more productive and mature early!

Glow Pepper

The orange sister to Aura & Lipstick! Faster to ripen than bell peppers, but with the same thick, juicy walls.

Lipstick Pepper

The red sister to Aura! Faster to ripen than bell peppers, but with the same thick, juicy walls! Mid-sized.

Yellow Bell

This crisp yellow bell is early and disease resistant for the ultimate gardening success!

Other Solanaceae: Peppers, Eggplant & Potatoes

Planting Window: May - June
Harvesting Window: July - October

Habanada

Floral habanero flavor with none of the heat. These unique sweet peppers are super productive and can be eaten roasted like Shishitos or sliced into salads.

Yellow Snacking

Crunchy yellow snacking peppers are the perfect pairing with red and orange! Orange and yellow snacking peppers are slightly larger than the reds. Kids love 'em!

Orange Bell

This blocky orange bell brings colorful, crisp snacking to the garden! Requires patience for peppers to ripen from green to orange.

Red Bell

This 4-lobed, thick-walled bell pepper is great for fresh eating or stuffing. Like all bells, these are slow to ripen to red.

Jimmy Nardello Frying

Sweet red frying pepper! 8" long, 1" wide with thin walls and ripply skin.

Lantern Habanero

Early red habanero with enough heat to call the firemen! Proceed with caution!

Orange Snacking

Super sweet snacking peppers ripen fast and are slightly larger than the red variety.

Red Snacking

Petite red peppers, perfect for snacking since the seed cavity is super small and concentrated toward the stem.

Patchwork Snacking

If you want to elevate your snacking pepper game, give this savory variegated option from Chef Dan Barber at Blue Hill at Stone Barns a try! Not a sweet pepper.

Shishito

This mild Japanese pepper is small with thin walls making it ideal for roasting! Characteristically eaten green; eventually ripens to orange/red.

Poblano

Classic spicy stuffing pepper. Ripens from green to red but can be eaten at any stage. Only 2,000 Scoville Units.

Jalapeno

Traditional productive jalapeno. Forms small cracks in skin when fruits mature. (5,000 SHU) Hotter than regular Jalapenos from the grocery store; pick young for more mild peppers.

Serrano

Fruity-hot flavor (6,000-17,000 SHU). Extremely productive! Perfect for making sauces and chilis.

Ring-O-Fire Cayenne

These 4" long red fruits are super hot and perfect for drying, decoration or adding zing to chilis and stews! 20,000 SHU

Hungarian Hot Wax

Harvest these mildly spicy babies at any color for an increasingly sweet and spicy flavor adventure! Very productive.

Traviata

Classic Italian eggplant with spineless fruits!

Annina

Spineless, gorgeous striped egg-plant!

Patio Eggplant

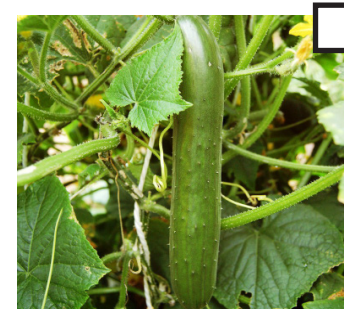

This miniature eggplant is great for grilling and growing in small spaces. No peeling or salt treatment necessary!

Cucurbits

Cucumbers,
Squash, Melons

Planting Window: May - June

Harvesting Window: July - October

Green Finger Cucumber

Our favorite all-around American slicer. Aromatic and flavorful!

Tyria Cucumber

This extra long English cucumber has thin skin and small seeds.

Ping Tung Long

Tender, slim, long light purple fruits are 1-2" wide and 12-14" long. Perfect for grilling whole!

Gretel

The white sister of Ping Tung Long! Perfect for grilling or roasting. Bitter-free.

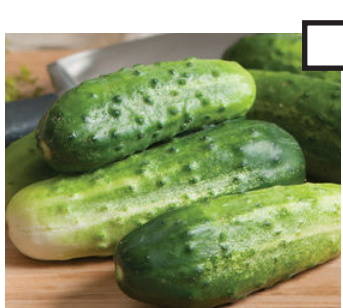

Caribou Russet

Classic potato for making french fries! Great for baking and staple for mashed potatoes as well.

AmaRosa Pink

Pink skin and unique pink flesh that resists fading when cooked. This gorgeous red fingerling will make your mouth water!

Kirby Pickling Cucumber

A crisp, classic pickling cuke ready for vinegar and spices!

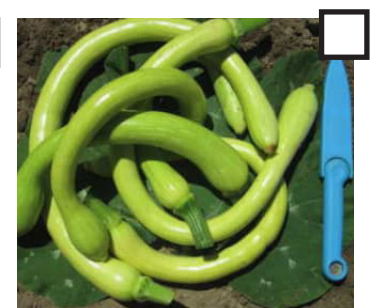

Mexican Sour Gherkin

These tiny cukes look like watermelons and taste like pickles! Crunchy, refreshing and unique, the kids will love this one!

Zucchini

Classic zucchini. Productive, disease resistant and spineless!

Zucchini Rampicante

Get the best of both worlds! Delicious, nutty summer squash that can be eaten as a winter squash as well! In Italy they use this to stuff ravioli & gnocchi.

Laratte Fingerling

With tan skin and dark yellow flesh, these French fingerlings will melt in your mouth!

Chieftan Potato

With beautiful red skin and pure white, firm flesh, these puppies are perfect for your next batch of potato salad!

Upstate Abundance

This small, white-fleshed potato has a creamy, nutty flavor to die for!

Bora Valley Potato

Blue skin and blue, firm flesh! Delicious almost any way you want to cook them, but especially beautiful in a mix with whites & reds!

Yellow Squash

These productive and spineless plants make it a joy to harvest! Buttery flavor; excellent grilled.

Pattypan

Yellow pattypan with a circle of green on the blossom end. Perfect for sautéing or grilling!

Rond de Nice

This French heirloom succulent, round summer squash is perfect for building tomato towers or stuffing!

Arava Melon

Extended harvests on productive, disease-resistant plants. Our first year offering this green melon!

Cantaloupe

Melt-in-your-mouth classic cantaloupe; a favorite every season.

Crimson Sweet Watermelon

This classic watermelon has incredibly sweet red flesh, fine grained texture and grows between 15-25 lbs!

Sugar Baby Watermelon

Baby watermelon, personal sized!

Spaghetti Squash

Classic spaghetti substitute! Just bake and serve. Fun for the kids!

Legumes

Beans & Peas

Planting Window: April - July

Harvesting Window: June - October

Provider Snap Bean

This classic snap bean gives you that juicy bean crunch!

French Filet Bush Bean

French Filet "Haricots vert" type on a bush plant. Extra fine, short pods.

Delicata

So sweet and tender, the skin can be eaten like summer squash.

Honeynut Squash

Another hit from Chef Dan Barber, a single serving butternut! Great for dinner parties or a simple weekday night. Impeccable sweet flavor.

Butternut

This butternut is one of our favorites for curried soup with a hunk of crusty bread. Stores well for winter use!

Black Futsu Squash

This Japanese delicacy has flavor like a butternut with very thin skin that needs no peeling. Blush color, bumpy skin is perfect for your Halloween and Thanksgiving table. Stores well into the winter.

Gold Rush Yellow Wax Bush

Your classic wax bean with a mild taste and great crunch! Perfect for pickling dilly beans since this plant has a concentrated harvest.

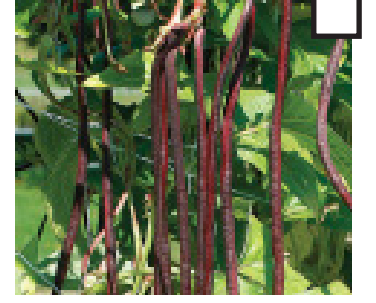

Dragon Tongue

Best fresh bean flavor, hands down! These unique Romano wax beans have beautiful purple stripes that intrigue kids and grown-ups alike!

Purple Pole Bean

These purple romano type beans have purple flesh and skin that turns green if cooked. Juicy, prolific, and very fun!

Red Noodle Bean

Unique Chinese stir-frying bean reaches up to 18" long! Can also be eaten raw when small. Kids will love this special garden surprise!

Kogatanga Squash

This sweet, smooth squash from Chef Dan Barber of Blue Hill at Stone Barns is all the rage! Use as indoor fall decor before roasting up to eat!

Winter Luxury

This stunning mid-size pumpkin is delicious for making pies and will simply glow in your fall decorations with a silvery netting over classic orange skin.

Jack-Be-Little

These mini pumpkins are perfect for painting and fall decorations!

Casperita

A mini white pumpkin to refine your fall ornamental display!

Emerite Pole Bean

Climbing French Filet! Enjoy this delicacy all summer long while saving space!

Sugar Snap Pea

A sugar snap to satisfy any pea lover's desire for that garden fresh crunch!

*Spring and Fall Only

Oregon Snow Pea

Extra large snow pea for Asian stir-fries!

*Spring and Fall Only

Green Arrow Shelling Pea

Disease resistant, classic english shelling pea! Fancy, long pods.

*Spring and Fall Only

Greens

Lettuce, Arugula, Kale,
Mustards & Spinach

Planting Window: All Season

Harvesting Window: All Season

Green Summercrisp

 Crunchy, frilly leaves with a mild flavor. The best lettuce for summer growing.

Red Summercrisp

 This beautiful, mild red summercrisp will yield great heads even in summer heat!

Frissé

This French classic begs for creamy dressings with blanched hearts and deeply cut, ruffy leaves. Takes summer heat in stride!

Escarole

Classic bitter leaves great for sautéing or salads.

Arugula

A Spicy favorite! Cold hardy & fast growing. Great for cold frames.

**Spring and Fall Only*

Collards

Deeply lobed leaves with spicy flavor!

**Spring and Fall Only*

Red Leaf

Huge heads in spring with crinkled leaves and a green heart.

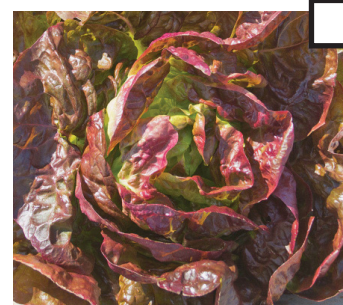

**Spring and Fall Only*

Green Butterhead

 Thick, creamy, soft leaves with a mild flavor. Best in spring and fall!

**Spring and Fall Only*

Red Butterhead

 Soft, red buttery leaves with a green center. Best in spring and fall.

**Spring and Fall Only*

Romaine

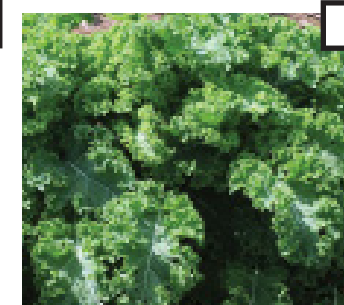

Classic romaine for grilling or chopping into caesar salads.

**Spring and Fall Only*

Rainbow Lacinato

 Imagine the beloved Lacinato kale with purple stems and a wider, more tender leaf. Breeder Frank Morton has crossed Lacinato and Redbor to come up with a unique, stand-out variety!

Ripbor Kale

Classic crinkly, green leaves. Excellent for salads, stir-fries, or kale chips! Great addition to cold frames.

** Baby version available*

Lacinato Kale

Extra dark, blue green leaves look like dinosaur skin! Otherwise known as Tuscan kale.

Scarlet Kale

Gorgeous crinkly purple kale with red veins! Beautiful in edible bouquets and even resists cabbage loopers!

Freckles Romaine

An heirloom romaine that is just plain beautiful! Purple splashes on green leaves and heat-tolerant to boot!

**Spring and Fall Only*

Baby Lettuce Mix

This lettuce mix is grown from seed and harvested when about 5-6" tall.

Braising Mix

Slightly spicy mix of brassicas: bok choy, mizuna, tatsoi & mustards, perfect for braising.

Radicchio

This classic radicchio lends a tart kick to any salad. When cooked, the flavor mellows.

Red Russian Kale

This flat-leaved, cold tolerant variety is fast growing and has beautiful red veins.

** Baby version available*

Green Wave Mustard

A slow-bolting green mustard with a spicy flavor when raw and a mild flavor when cooked. Great addition to the spring or fall garden!

**Spring and Fall Only*

Yukina Savoy

 Need a vitamin infusion? This heat-tolerant brassica is the perfect summer spinach sub when heat causes spinach to bolt!

Tokyo Bekana

Bolt resistant Asian salad green. Grown like bok choy. Leafy and mild!

Purple Mizuna

Purple-veined leaves with mild mustard flavor. Adds beautiful color and nutrition to salads or can be eaten cooked.

Spinach

 Semi-savoyed, thick leaves. Cold hardy and perfect for cold frames!

*Spring and Fall Only

Malabar Spinach

Completely different from regular spinach! This frost-tender vine produces loads succulent-type leaves, perfect for salads. Can be harvested at any size. A spinach you can grow in summer!

Rainbow Chard

 Tender stalks of red, pink, orange, yellow, and white. Delicious in a balsamic vinaigrette!

* Baby version available

Root Crops

Carrots, Beets, Radishes, Parsnips & Turnips

Planting Window: April - August

Harvesting Window: May - November

Nantes Carrot

 Our sweetest all-around carrot for fresh eating and storage!

Lancer Parsnip

Cousin of the carrot with a super-sweet earthy flavor, perfect for root veggie roasts. We love them diced into meatloaf or mashed with rosemary and thyme.

Brassicas

Broccoli, Broccolini, Kohlrabi, Cabbage

Planting Window: April - July

Harvesting Window: July - November

Broccoli

This broccoli variety will give you an initial large head followed by slightly smaller side-shoots for broccoli all summer long.

Broccolini

 These mini broccoli heads produce throughout the summer. Delicious sautéed with garlic and white beans.

Boro Beet

 Extremely sweet, smooth roots.

Chiogga Beet

Italian heirloom with a red and white bull's eye design. Perfect for grilling or slicing raw into salads.

Touchstone Gold Beet

Sweeter and milder than red beets! No bleeding.

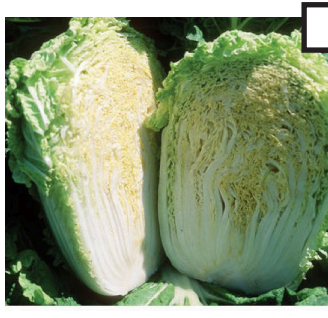

Farao Cabbage

 This small cabbage is a garden space saver! Delicious and crispy for slaws all summer!

Integro Cabbage

Classic red cabbage. Ornamental and delicious in slaws or salads!

Napa Cabbage

Tender, white interior. Lends the perfect addition to any Asian dish! Best grown in fall.

Pac Choi

 An Asian classic for sautéing with mild flavor & crunchy texture!

D'Avignon Radish

 Beautiful, elongated French Breakfast type. A gourmet favorite for its mild flavor and sophisticated appearance.

*Spring and Fall Only

Classic Red Radish

Classic red radish with crisp, mild roots!

*Spring and Fall Only

Watermelon Radish

 Breathtakingly beautiful when sliced open! Looks just like its namesake with that classic radish taste. Great fall option!

*Fall Only

Daikon Miyashige

 Japanese variety for soups, pickling, fermenting, and storage. Delicious mild greens can be eaten raw or cooked.

*Fall Only

Kohlrabi

🌱 If you haven't tasted kohlrabi, it tastes like broccoli stalk with the texture of an apple and a super mild flavor! Kohlrabi sticks are a great crudité option as well!

Tokyo Market Turnip

🌱 Like radishes, but not their spice? Sweet, mild and crispy, these are all the rage at Farmer's Markets. Delicious raw in salad or cooked in soups and stews. Greens are also tender and mild.

Purple Top Turnip

Classic cooking turnip. Creamy white flesh, perfect for winter stews. Young greens can also be eaten raw or cooked.

*Fall Only

Joan Rutabaga

This crispy fall root lends a sweet depth of flavor to soups and stews.

*Fall Only

Alliums

Onions, Garlic, Leeks, Scallions, Shallots

Planting Window: April - June

Harvesting Window: July - November

New York Early

Classic yellow onion that can be stored for winter use.

Red Wing Onion

Who doesn't love a nice, thick slice of red onion on their burger? Great keeper for winter use.

Miscellaneous

Asparagus, Bulbing Fennel, Celery, Ginger, Rhubarb, Sweet Potato

Asparagus

This perennial produces succulent spears in early spring for several weeks. The best variety for reliable spears. (Note: May not produce harvestable spears for 2-3 years after planting.) *Perennial

Bulbing Fennel

Lends a delicious licorice flavor to Italian white bean salads or root veggie roasts.

Ailsa Craig Sweet

This sweet onion is mild and great raw in salads and on sandwiches. Not a long term storage onion.

Red Long of Tropea

Specialty variety with tall, elongated red bulbs. Matures in late Summer and is ideal for fresh-use. Not a storage onion.

Green Scallions

Chop these sweeties into salads, soups, or tacos.

Purple Scallions

🌱 These beautiful purple scallions give you a colorful surprise when you pull them out of the ground! Adds fresh flavor to sandwiches, soups and more!

Celery

Your kids will love ants-on-a-log with your own home-ground celery! Harvest the outer stalks for a continuous harvest all season long! Especially sweet in fall.

Rhubarb

This large, long-lived perennial vegetable lends tart flavor to pies, sauces and jams! Leaves are poisonous so be mindful only to eat the stalks! *Perennial

Sweet Potato

These sugary-sweet roots are harvested before the first frost in fall and are actually a cousin of the Morning Glory!

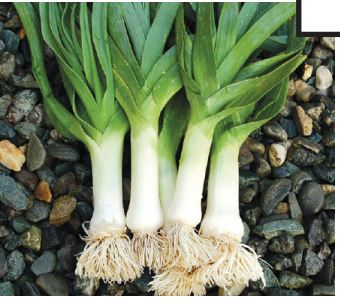

Ginger

🌱 Grow your own ginger right at home! This tropical plant takes a long season to produce tender, spicy tubers, but does amazingly well when started very early in our greenhouse! Great for small gardens with limited space or pots.

Purplelette

These adorable purple pearl onions are perfect for making Thanksgiving creamed onions, or pickled onions for martinis. Great fresh in salads, too.

Leeks

Mild onion flavor for late season fall & early winter harvests!

Shallots

🌱 Mild onion flavor great for making shrimp scampi or any other dish!

Hardneck Garlic

🌱 Huge cloves lend fiery flavor to dishes, raw or cooked! Fall planting. Harvest scapes in June, bulbs in July. *Fall Planting

Herbs

Basil, Chives, Dill
Mint, Parsley, etc.

Planting Window: All Season
Harvesting Window: All Season

Devotion Basil

 Classic sweet basil with disease resistance.

Mrs. Burn's Lemon

This tangy, citrusy sweet basil is great in pesto as it tastes like you've already added lemon juice!

Greek Oregano

Related to mint, this Italian herb is an essential ingredient in tomato sauce!

Flat Leaf Parsley

 Harvest parsley throughout the season for fresh Italian and Greek flavors.

Barbeque Rosemary

A classic pine-scented herb that's absolutely delicious on roasted root vegetables, chicken or in any Mediterranean dish.

Common Sage

Gray/green leaves are a delicious addition to wintery soups, stews and stuffing! Beautiful lavender flower spikes bloom in late spring/early summer.

Purple Basil

Gorgeous purple foliage and flowers with classic sweet basil flavor! A beautiful addition to edible bouquets or any tomato salad.

Onion Chives

Harvest chives year-round for the perfect soup or salad topper! Edible purple flowers in Spring.

Garlic Chives

These delicious, mild garlicky chives also produce a beautiful white flower in fall, great for cutting.

Cilantro

 This zesty green foliage can be added to any Mexican or Asian inspired dishes! Dried seed pods are also known as Coriander.

*Spring and Fall Only

Purple Sage

Slender purple and green leaves accent each other for a truly stunning addition to edible bouquets. Same savory sage flavor, only purple! Can be dried for winter use. This variety does not flower.

French Tarragon

This classic French herb lends a mild anise flavor to any dish!

Stevia

Intensely sweet herbal alternative to sugar. Leaves are easily dried for year-round use.

English Thyme

Winter-hardy variety for instant French flair. Combine thyme, lemon juice and olive oil for a classic French vinaigrette or marinade.

Dill

 Harvest fronds for cucumber soups and sandwiches or the seeds for pickling! Gorgeous additions to any edible bouquet.

*Spring and Fall Only

Lemon Balm

Fragrant addition to salads or tea.

Lemon Verbena

A perennial in warmer climates, this delicious lemony herb can be used in culinary and medicinal cooking, teas, tinctures and soap making! Bruise the leaf for a delectable smell!

Mojito Mint

Is it 5 o'clock yet? Time to mix up some fresh garden cocktails! Mint can also be used in hot or iced tea and dried to use over the winter.

Notes

Flowers

Dahlias, Marigolds, Sunflowers, Zinnias etc.

Planting Window: May - June

Harvesting Window: July - October

Anise Hyssop

This licorice-sweet edible flower produces soft, grayish-purple spikes from mid-summer through frost that bees simply can't resist! Beautiful and useful!

Diablo Cosmos

Striking orange-red blossoms. We think this little devil is worth growing! Plants reach only 2-3 feet tall.:

Cupcake Cosmos

Light and floaty, these cosmos will make your heart skip a beat!

Supercrest Celosia Mix

These "brain" shaped crests provide vibrant garden color from mid-summer through fall: salmon pink, burgundy, magenta, and gold blossoms are perfect additions to bouquets and the bees go absolutely nuts for them!

Flamingo Feather Celosia

Soft pink celosia. Amazing addition to bouquets. Dried very easily when hung upside-down.

Texas Plume Summer Sherbert Mix

Long lasting, soft feathery celosia plumes in shades of blush, watermelon, apricot, vintage rose and the occasional lemon yellow.

Chocolate Ammi Dara

The chocolate cousin of Queen Ann's Lace. Gorgeous, lacy accent flower will make your garden bouquets come alive- also known as carrot flower!

Coffee & Cream Dahlia Mix

Multi-shaped dahlia mix includes bronze, cafe au lait, and deep burgundy color palette that is an all-season stunner.

Coral Charm Dahlia Mix

Cafe au Lait dinnerplate dahlias are the focal point of this creamy coral mix including ball and anemone shapes.

Fiery Dahlia Mix

Assorted sizes from dinnerplate to pom-pom blooms with blazing, bright colors of red, yellow, orange that will knock your socks off!

High Contrast Dahlia Mix

We love the way the warm corals contrast sharply against the bright & cool-toned yellow and purple in this mix. A real show stopper for those that love shock & awe in the garden.

Snow White Dahlia Mix

Beautiful mix of multi-shape and sized dahlias that are bright white including some with yellow hued centers.

Terracotta Dahlia Mix

Our favorite earthy & warm-toned salmon, coral, and clay colored dahlias in a variety of shapes to peak visual interest.

Unicorn Dreams Dahlia Mix

Otherworldly swirls of pink, lilac, and lavender adorn this kid-friendly dahlia mix.

Cheyenne Spirit Echinacea

Grows 1-2 feet tall. Buds and roots are medicinal. Attracts bees and beneficial insects.

Pink Globe Amaranth Mix

Blooms in shades of purple, pink, and white, this productive flower is great in gardens or arrangements!

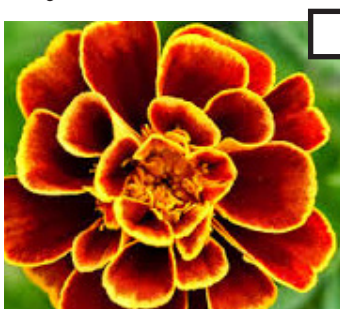

Strawberry Amaranth

Long stems and a strawberry-red color give this globe amaranth the perfect attributes for a long-lasting cut or dried flower! Stunning addition to colorful bouquets. Attracts beneficial insects.

Munstead Lavender

Classic fragrant mediterranean flower, perfect for bouquets, adding to baked goods, or Herb de Provence mixes. Synonymous with deep relaxation

Red Queen Marigold

A red marigold rimmed in gold for a refined, regal look! Great color to decorate the outside of the vegetable garden and deter "bad" bugs!

Buttercream Marigold

This more refined pastel yellow marigold perfectly matches more subtle shades of purple, pink and white.

Nasturtium

Trailing vines that look like lily-pads are edible and peppery with a similar flavor to arugula! Flowers are a beautiful addition to salads and have a lighter, spicy flavor.

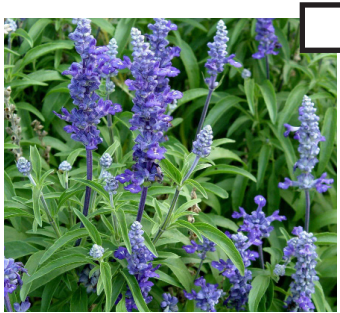

Gloriosa Black Eyed Susan

Large, double blooms on long strong stems. Robust plants with yellow daisy-like appearance.

Sahara Black Eyed Susan

Soft fall colors of copper, brown, pale yellow and rose elevate this classic garden flower.

Salvia

Also known as mealy-cup sage, this tender perennial produces gorgeous blue flowers which can be cut fresh or dried.

Velvet Queen Sunflower

Add a shade of bronze to your sunflower collection with this elegant branching variety. Height averages 5' with blooms 5-6" across.

Goldy Double Sunflower

Fully double petals that give a stunning sunburst of color to any garden! Multi-branching stems provide great cutting flowers. Height averages 5-6'.

Titan Sunflower

Kids love this giant 12' sunflower! Head averages 18-24" across. Bees and birds love it. Large seeds have been bred for eating.

Valentine Sunflower

Pale yellow petals and a black center make these demure sunflowers an Italian classic!

Snapdragon Mix

These 2-3' plants lend a whimsical splash of colorful spires to your garden landscape. Edible and great for cutting. Yellow, pink, white, purple, orange and bicolors included.

Strawflower Mix

Drop-dead gorgeous, fully double paper blossoms in bright fiery red, pink, rose & white. The perfect everlasting to pair with Globe Amaranth. Attracts beneficial pollinators.

Pleurisy Root

Everyone should have some milkweed in their garden, and this stunning orange beauty won't spread invasively like other milkweeds. Flowers show in mid to late summer and provide important habitat for pollinators. Roots are medicinal.

Purple Top Verbena

Clusters of 2" purple flower heads with long, slender stems. 36-48" tall, this gorgeous flower attracts bees and butterflies to the garden!

Blue Nigella

True blue and whimsical, airy blooms bring joy to the early summer and nectar to pollinators. After the flowers go by, ornamental seed pods lend texture and interest to late summer bouquets.

Oklahoma Zinnias

These smaller, rounded, fully double zinnia blossoms boast a stunning mix of scarlet, salmon, bright yellow, lavender, pink and white colors. Mildew resistant and great keepers in the vase!

Pastel Zinnia Mix

Hues of mauve, blush, green, and apricot. Features a wide range of colors in the popular "Queen" zinnia series.

White Dwarf Zinnia

For those looking for an elegant, simple look, this neat & tidy white flower is perfect for low borders & pairing with blue and purple hues. Cut the blossoms when they are half open for perfect little bud vases.

Coral Dwarf Zinnia

These short little zinnias will wow you with their disease resistance and ability to bloom all season long! A stunning display of color and great cutting for small bud vases.

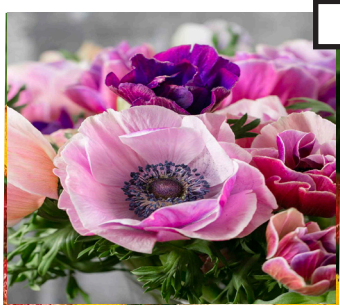

Giant Zinnia Mix

Zinnias are the premier flower for cutting and also attract butterflies, bumble bees and other beneficial insects to the garden.

Panda Anemone

Classic white petals offset by a large dark center. These cheerful anemones are some of the first flowers to bloom in early Spring.

Pastel Anemone

A palette of rose, plum, and lavender that's beloved by pollinators! Holds extremely well in the vase.

Bright Ranunculus Mix

Stunning hues of canary yellow, fiery orange, pure white, rosey pink, salmon and wine buttercups.

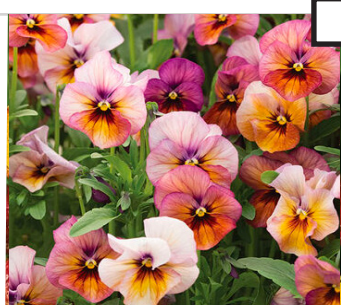

White Picotee Mix

White petals edged in pink and lavender. A demure and perfect ranunculus mix!

Brushstrokes Viola

Like a Picasso painting. Gold, peach, lavender, plum and cream blossoms. Edible and unique!

Mulberry Shades Viola

A perfect Fall viola! Blooms in shades of terracotta, plum, caramel, mauve and gold. Edible flowers.

Purple Majesty Ornamental Grass

Deep purple foliage and stems with cat-tail like spikes. Also known as Pearl Millet. Nearly black!

Sunfill Purple Sunflower

Petals are green at the center, fading the purple. Perfect for Fall cut-flower bouquets!

Procut Plum Sunflower

Muted plum to cream bi-color blooms have tall, strong stems and are pollenless!

White Night Sunflower

Creamy pale yellow, almost white, petals with a dark center. Great cut flowers for Fall!

Procut Red Sunflower

Early, impressive red blooms are produced on long, single stems. An autumn showstopper in the garden and in bouquets.

Firecracker Sunflower

These 5 foot tall sunflowers yield gorgeous red and gold flowers. Unique and pollenless for the cut-flower aficionado.

Edible Landscaping

Berry Structures, Planting, and Seasonal Maintenance

Imagine stepping outside on a Saturday morning to handpick beautiful berries for pancakes and fresh eating! Growing your own berries at home is one of life's greatest simple joys.

Our Brambleberry Package:

- Custom white cedar 4' x 8' raised bed (raspberries) or 3' x 8' raised bed (blackberries)
- Nutritious soil
- Custom-built trellises for canes & vines
- Eight (8) raspberry plants or three (3) blackberry plants

Raspberry Package: \$1495

Blackberry Package: \$1225

Our Blueberry Package:

- Custom white cedar 3' x 8' or 6' x 8' bed
- Nutritious soil with blueberry-specific amendments to lower the pH
- Three (3) or six (6) highbush blueberry plants

Three Blueberry Bushes: \$1295

Six Blueberry Bushes: \$1495

Ask about adding berries to your maintenance plan!

Turn Your Home...

...Into a Homestead!

Protect Your Crops From Critters and Birds

Strawberry Enclosure

There is nothing more frustrating than waiting for your strawberry to ripen into a deep red, and just as it does, it disappears! Strawberry enclosures are custom built to fit atop your garden bed to protect your berries from chipmunks and squirrels! Increase and ensure your berry yield for years to come!

Tomato Enclosure

Were squirrels and chipmunks chomping on your perfectly vine-ripened tomatoes this year? Us too!

Tomato enclosures help protect your precious heir-looms from critters that know all too well exactly when your tomatoes are finally ripening. Custom built to fit the shape of your tomato area from white cedar, these enclosures help deter pests so you can enjoy the bounty all season long.

Compost Bins

With unsure times ahead, growing your own food takes precedence. The next step is saving your food waste from landfills, and instead, creating your own nutrient rich compost in your own backyard! These beautiful cedar compost bins are easy to use and can be placed near your garden. Available in single, double, or triple size so you don't have to miss a beat while waiting on your last pile to break down.

Backyard Beekeeping

-  **Assessment:** Schedule a time for us to assess your property, determine if it's suitable for bees, and answer any questions you may have.
-  **Make a Plan:** After evaluating your location and goals, we'll work with you to develop a beekeeping plan that fits your lifestyle.
-  **Installation:** Once the plan is finalized, we install your custom hives and bees on your property.
-  **Maintenance:** We inspect the bees bi-weekly to monitor colony health and perform seasonally appropriate tasks. You'll receive a full hive report after each visit.
-  **Harvest:** You keep 100% of the surplus raw honey produced right in your backyard. We won't harvest the honey until there is a surplus, and we'll do the heavy, sticky work of extracting, bottling, and labeling for you.

Looking forward to a beautiful & bountiful 2024!
